

ESSENTIAL INFORMATION

DIMENSIONS, INSTALLATION & CONNECTION

Have a licensed electrician run the required 230-volt power line to the spa installation site. This power line must be permanently connected (hard-wired) to the mains supply. Do not use extension cords or plug-in type connections. At the site where the spa is to be located, leave 4 metres of cable and the appropriate cable gland. All electrical wiring to a spa **MUST** be installed by a qualified, licensed electrician and approved by local building/electrical inspectors.

- **PLEASE NOTE: Failure to supply the recommended power will void the Manufacturer's warranty.**
- For all Canadian Spa Company spas, with the exception of the Muskoka & Haliburton the power supply to the spa must be a dedicated 50 amp GFI protected circuit. No other appliance or lights should share the power provided by the circuit.
- For the Muskoka and Haliburton models, a 15 amp, 100 volt line will suffice.
- See wiring diagram for specific information.

Dimensions may vary slightly from spa to spa as all cedar cabinets are hand made. Product specifications subject to change without notice

SPA TYPE	A	B	C	D	E	F	G	H	Volume	Weight Dry	Weight Wet

PRE DELIVERY INSTRUCTIONS

Positioning of your spa: When selecting a site for your spa, take into account the following:

LOCAL CODES: There may be certain restrictions and/or requirements that are particular to your locality. If in doubt check with your local council.

DELIVERY AND PASSAGEWAY: The spa will arrive as a unit, and in most cases cannot be dismantled. Ideally the spa will be placed on a trolley either on its side or on its base. The unit will then be rolled into place easily crossing grass, gravel and small terrain anomalies. For safe and non-intrusive installation, or in the case of other obstacles (steps, walls, steep hills etc.) contact Canadian Spa Company for advice and conditions.

LOCATION AND BASE: A sheltered environment can result in lower operating and maintenance costs. You must allow 1 metre clearance for access to the spa's access panel for servicing.

- The site you select for your spa **MUST** be a flat, level continuous surface that contacts the bottom of your spa fully.

- Your new spa weighs between 900 and 1400 Kgs when full and therefore a solid support is essential when the spa is mounted on a deck or ground level patio/floor. It is recommended that you install your spa at ground level which allows easy access to equipment.
- A 10 to 15cm thick reinforced concrete slab is ideal, but not required. In most cases your spa can be placed on existing patios.
- The base should be at least the size of the bottom of your spa. (See spa sizes)
- Water should always drain away from the spa. **DO NOT** locate your spa in a low run-off area since melting snow or rain could flood the area and cause pump and equipment damage.
- **DO NOT** locate the spa near or under overhead wires, keeping clear of all electrical appliances.

TERMS AND CONDITIONS

PAYMENT: Bankers Draft, Bank Transfer, Mastercard, Visa, Switch or American Express.

CREDIT: Approved Credit only — call for application. Net due 10 days of invoice.

FREIGHT: Please specify your preference of carrier, otherwise goods will be shipped via the carrier of our choice.

WAREHOUSE: Crawley, West Sussex, UK, Oakville, Ontario, Canada or Villepinte, France.

CONTAINER: 12 units or more per location. Canadian Spa Company will pay all freight charges.

MINIMUM QUANTITY: All orders must be shipped in case quantities. Minimum invoice amount is \$100, not including delivery charges.

RETURNS: Goods returned for credit must be shipped with an "RGA" number on the outside of the box and on all paperwork. You will be given an "RGA" number when you arrange a return. Authorised returns in original condition are subject to a 15% restocking charge. Cartons sent back in damaged condition will be charged a slightly higher restocking charge. All returns must be **PREPAID FREIGHT**.

Custom made products or special orders cannot be returned.

Prices are subject to change without notice.

WARRANTY: The warranty is extended to the original purchaser. Canadian Spa Company warrants the products it manufactures, including all parts and components thereof, to be free of defects in material and workmanship. The Warranty does not apply if the failure is caused or contributed by any of the following: improper handling, improper storage, abuse, improper installation, unsuitable application, lack of reasonable and necessary maintenance, or repairs made or attempted by other than authorised service centres or technicians. Canadian Spa Company will repair or replace, at its option, a unit proved to be defective within the warranty period and under the condition of the warranty.

Canadian Spa Company is not responsible for the cost of removal of the unit, damages due to removal or installation, any shipping charges to or from the factory or the installation of a repaired or replacement unit.

IMPORTANT FOR GAZEBOS, THE PAD SIZES ARE:

- Frontenac Pad size 3.7 m x 3.7 m
- Whistler Pad size 3.7 m x 5.0 m
- Banff Pad size 3.5 m x 3.5 m
